

# Assistive Technology & Call Monitoring

*Living Your Life,  
Your Way!*

**Mi Casa Care supports independent living empowering you to live Your life, Your Way!**

Mi Casa Care are a Care Quality Commission (CQC) registered provider embracing person centred care. As such we pride ourselves on the flexible and adaptable care support services we have available.

Each and every one of us are different. We have different needs, abilities, budgets and circumstances which means that the care and support we have reflects all these.

## Assistive Technology & Call Monitoring

*Help is just a push of a button away!*

With call monitoring at Mi Casa Call you have access to emergency help and support 24 hours a day, 7 days a week at a touch of a button!

With an innovative approach support is provided via our award winning assistive technology through to our English speaking call monitoring centres in the UK. We can then arrange the most appropriate solution making sure help is on it's way.

## How can assistive technology help?

Benefits and Features of 'Mi Casa Call':

- **24/7 access to emergency assistance!**
- 1000 m radius and auto GPS switch when out and about - It goes where you go!
- Direct to an English speaking UK call centre
- Detects when you have a fall and automatically makes a call to our operators
- Keeps your family in the loop of your daily activities and alerts us if anything is wrong (If you choose)
- Additional speaker units and peripheral devices such as motion sensors, flood detectors and ehealth services for you and around your property
- **No need for a phoneline or Broadband!** Just plug in and go! (Back up battery included)
- Liaising with health professionals on your behalf making the whole situation easier.
- **Weekly payments from just £5.95\*** (No phone line required saving you money on line rentals costs)

*"Compared to other care agencies we have had, Mi Casa Care are the best! All staff are experienced to provide stroke care to my husband and they encourage independence." JP*
